POWERING AGAINST DATA LOSS WITH CLOUD BACKUP & RECOVERY

The Cloud Backup and Recovery solution creates and stores copies of data that can be used to protect your organisation against data loss. Recovery from a backup typically involves restoring the data to the original location, or to an alternate location, where it can be used in place of the lost or damaged

KEY FEATURES

AUTOMATIC CLOUD BACKUP

Your files, database, and application are securely backed up without manual effort

LOCAL DATA HOSTING

Ensures regulatory compliance, faster access speeds, and local reliability

FAST DATA RECOVERY

Restore your data instantly in case of loss, corruption, or attack

SCALABLE STORAGE

Grow your backup capacity as your business expands — no hardware is needed.

SECURE, ENCRYPTED STORAGE

Your data is encrypted in transit and at rest, protecting it from unauthorized access

24/7 DEDICATED SUPPORT

Our support team is always available to help

BENEFITS

MINIMISE DOWNTIME
Easily add new or higher service resources e.g. CPU, RAM and Storage

REDUCE COSTS
Cost effective and highly customisable

PROTECT AGAINST CYBER THREATS
Fully redundant secure infrastructure in Safaricom's multiple data centres

PARTNER WITH A TRUSTED LOCAL PROVIDER
Respond quickly to changing business needs

ENSURE BUSINESS CONTINUITY
24/7 technical assistance
