

Safaricom BUSINESS

# POWERING ACCESSIBLE DATA FROM ANYWHERE WITH VIRTUAL SERVERS

Safaricom Cloud provides a unified, software-defined infrastructure, giving you the freedom to modernise apps at your pace. We offer virtual server packages with additional Storage, Network and Security, Backup and Disaster-Recovery-as-a-Service (DraaS)

## KEY FEATURES

### SCALABLE PERFORMANCE

Easily scale resources (CPU, RAM, storage) up or down based on your business needs without downtime

### HIGH AVAILABILITY

Ensures your applications remain online with minimal disruptions, backed by reliable data centre infrastructure

### SECURE ENVIRONMENT

Protects your data with advanced security protocols, firewalls, and encryption

### FLEXIBLE OPERATING SYSTEMS

Supports multiple OS options like Windows and Linux, giving you freedom to choose the environment that fits your applications

### COST EFFECTIVE

Pay only for the resources you use, making it an efficient solution for businesses of all sizes

### EASY MANAGEMENT

Intuitive control panel for deploying, monitoring, and managing virtual servers without complex IT expertise

## BENEFITS

**SCALABILITY**
Easily add new or higher service resources e.g. CPU, RAM and Storage

**COST EFFECTIVE**
Cost effective and highly customisable
